Registration:

You are responsible for ensuring you are registered in the correct courses. If you are not registered in a course, the Department will not release any of your marks until your registration is corrected. You may check your courses on the Registrar’s Office website at www.registrar.uwo.ca (choose “personal timetable”). Please contact your faculty academic counsellor right away if there is a problem.

Prerequisite Note:

The prerequisite for this course is Economics 2150a/b.

You are responsible for ensuring that you have successfully completed all course prerequisites, and that you have not taken an antirequisite course. Lack of prerequisites may not be used as a basis of appeal. If you are found to be ineligible for a course, you may be removed from it at any time and you will receive no adjustment to your fees. This decision cannot be appealed.

If you find that you do not have the course prerequisites, it is in your best interest to drop the course well before the end of the add/drop period. Your prompt attention to this matter will not only help protect your academic record, but will ensure that spaces become available for students who require the course in question for graduation.
Course Description:

The first goal of this course is to further develop theories of market power, such as monopoly and monopsony. Next, we will introduce game theory in order to study strategic behaviour and interactions between economic agents. Finally, students will receive an introduction to several mainstream areas of study in economics, including general equilibrium, risk, externalities, and public goods. Upon successful completion, students should feel prepared to critically analyse issues in firm behaviour, industrial organization, and public policy.
