ments to provide coordinated justice administration. The criminal justice curriculum is designed to give students an understanding of the developing theoretical knowledge base in this field of study while simultaneously providing an understanding of how each of the component parts relate to one another. Additionally, students learn how the justice system influences and is influenced by other institutions in society.

Student’s learning in the classroom is enhanced as faculty bring forth a myriad of expertise in criminal justice and criminology. Currently, faculty research topics highlight legal issues in the criminal justice system; the impact of race, sex, and class in criminal justice processing; communities and police; evaluation of criminal justice programs; comparative criminal justice; crime and the media; domestic terrorism; healthcare fraud; crime in organizations; juvenile delinquency; criminological theory; and the role of aggression in crime and delinquency. Faculty conduct research drawing on their expertise in a variety of quantitative and qualitative research methods, thus allowing them to bring not only their topical expertise, but also their methodological experience, into the learning environment.

Degree programs offered through the Department of Criminal Justice include Bachelor of Science in criminal justice and Master of Science in criminal justice. The bachelor’s degree program complies with the core curriculum requirements of the University System of Georgia. A student should complete the lower-division core curriculum requirements prior to taking upper-division courses.

**5140.10 Program Policies**

1. A grade of C or higher is required in CrJu 1100 (or equivalent transfer course) and all 3000/4000-level Criminal Justice courses at Georgia State University (GSU). A grade of C or higher is required in all courses in Areas G-L.
2. A minimum 2.00 cumulative grade point average at GSU is required to register for 3000/4000-level criminal justice courses. There are no exceptions to this policy. Effective Fall Semester 2005, the minimum grade point average requirement will increase to 2.25.
3. A minimum of 45 semester hours (15 courses) must be completed in 3000/4000-level criminal justice courses at Georgia State University. HHS 3000 is included in the 45 hours; CrJu 1100/3100 and CrJu 2200 are not included.
4. The Department of Criminal Justice believes that all students who are in internship experiences (class and field) must be personally and psychologically equipped as well as academically prepared. A student may be denied entry into internship field experience based on departmental prerequisites or the professional judgment of faculty based on observed performance, behavior, or documentation which indicates erratic, unpredictable, or unsuitable conduct. This policy is based on the premise that criminal justice faculty should be part of the evaluation of a student’s ability to function adequately and safely in a criminal justice setting and that faculty has a right and responsibility to make such judgments prior to placing a student in an internship. The internship coordinator has the authority to withdraw a student from a classroom and/or field experience (i.e., CrJu 4930, CrJu 4940) if the student’s performance constitutes a detriment to the students in the class and/or to personnel at the field internship site. If such removal is necessary, the student will be given an F for the course(s).
5. All completed applications and contracts must be turned in to the Department of Criminal Justice by the following dates in order to be considered for an internship that particular semester. **There will be no exceptions.** January 15 for summer semester; March 15 for fall semester; September 15 for spring semester.
6. Please note that all criminal justice majors must complete an internship during their final semester in the program. Some students will select placement with an agency that deals with sensitive information. As a result, a background check might be a requirement for placement. Background checks include prior arrests and convictions, abuse of illegal drugs, and DUI convictions. If students have a criminal record either before they declare their major or acquire a criminal record after declaring their major, they might be prohibited from participating in the internship. Since the internship is a requirement, they might be excluded from the degree program.

Alice S. Demi, Director

5150.10 Undergraduate Program

The Byrdine F. Lewis School of Nursing offers a curriculum leading to the Bachelor of Science degree with a major in nursing. Upon the completion of the baccalaureate program and subject to the rules of the Georgia Board of Nursing, the graduate becomes eligible to write the National Council Licensure Examination required for becoming a registered professional nurse. Students may enter the nursing program in the fall semester or the spring semester.

The university catalog in effect at the time a student is admitted to the nursing program will normally apply to a student. However, the nursing curriculum and other requirements are subject to change in order to comply with regulations of accrediting agencies or with institutional or university-system policies. Every effort will be made to notify students of such changes; however, it is the student’s responsibility to become aware of all current program and college requirements. Students who withdraw from the nursing sequence may enter under the current catalog if space is available in nursing courses with a clinical requirement. Academic credit for nursing courses for a student who withdraws from the nursing program is valid for a five-year period. Abnormal Psychology (Psyc 3140) must be completed within seven years prior to enrollment in Nurs 3810. Anatomy and Physiology I and II (Biology 1110K - 1120K) must be completed within five years prior to beginning the nursing sequence. Special exceptions may be made to this policy with the director’s permission.

Academic advisers work carefully with students to plan programs; however, it is the student’s responsibility to see that course prerequisites are met as required. The student is expected to follow the program planned in conjunction with the assigned academic and faculty advisers.

In order to provide appropriate learning experiences, nursing classes will be scheduled during the day and evening hours. In the event these experiences require the student to return to the clinical setting at times other than scheduled laboratory times, it is the student’s responsibility to be there as requested for the duration of the learning experience. Students’ personal schedules must be flexible to meet clinical requirements. The student will be expected to provide transportation to the clinical setting.

The School of Nursing reserves the right to make those program changes deemed appropriate. Curriculum changes are made whenever necessary to keep the learning experiences up to date in this rapidly changing field. Students will be expected to subscribe to these changes whenever they can do so without increasing the number of hours required for completion of the degree. The student is responsible for
