Mac OS X
Must install patch (*Java 1.3.1 Update 1*) before you can log on to Web for Student

To install the patch:

1) Go to "System Preferences" found either on the tool bar at the bottom of the screen or on the drop down menu under the BLUE apple.

2) Choose "Software Update"

3) Choose "Update Now"

4) After the search be sure that at a minimum the box for *JAVA 1.3.1 Update 1* is checked.

5) Follow downloading and restart instructions. This is a self-installing program - just click ok to restart after installation is done.
