Thesis/Non-Thesis Requirements

- The thesis should have a prominent world dimension; non-thesis students should select an appropriate minor field with a world component.

- Any remaining classes are electives.
- Please see the forms on pages 15 and 16 of the Graduate Handbook for more info.
- Normally only a single Directed Readings or Research class will count towards the completion of the requirements.
- Students may petition the Program's director to have other courses included.
- Students should meet with the Director each semester and also at least one month before graduation in order to verify that all requirements have been met.
- This checklist is just a tool; students should consult the handbook and catalog for definitive information.
