

## **Motion re GPA Requirements in Kinesiology and Health**

### **Motion:**

Effective Fall 2010, students, regardless of degree program or status, who have attempted nine or more semester hours of credit at Georgia State University must maintain a minimum cumulative Georgia State GPA of 2.50 to be eligible to enroll in

KH 3500, Athletic Training

KH 3550 Evaluation and Instrumentation in Exercise Science

KH 4280 Psychology of Physical Activity

KH 4290 Cardiopulmonary Physiology

KH 4300 Neuromuscular Physiology and Plasticity

KH 4350 Fitness Program Management

KH 4360 Clinical Exercise Physiology

KH 4600 Advanced Biomechanics for Exercise Science

KH 4630 Fitness Assessment and Exercise Prescription

Students who have attempted fewer than nine hours at Georgia State may enroll in these courses with below a 2.50 cumulative Georgia State GPA.

### **Rationale:**

The Upper-Division Admissions Committee recommended that this GPA request be approved.

The lab space for these courses is limited and there is no reasonable prospect that additional lab space will be available in the foreseeable future.

Current KH students with GPAs below 2.5 will be contacted and offered advisement services.

Admissions and Standards believes that the KH program is in a situation similar to other programs with GPA requirements. However, the larger issue of GPA requirements requires more study and a subcommittee is looking into this issue.
