

**Motion re the Appointment of Members of  
the Committee for Students with Special Talents**

Motion:

The method of appointing members to the Committee for Students With Special Talents is modified as follows:

*Additions* Deletions

The Committee shall be comprised of voting and ex-officio (non voting) members. Voting members include five faculty and a representative selected by the Athletic Department. Voting members of the committee will serve two year staggered terms. ~~The Chair of the Admissions and Standards Committee shall appoint five faculty members.~~ *The Senate Committee on Admissions and Standards shall appoint five faculty members.* A representative of the School of Music should be among the faculty appointees. It is expected that members of the Admissions and Standards Committee will be among the other faculty appointees. The ex-officio members of the Committee are the Admissions Director and the Assistant Athletics Director for Compliance, both of whom have permanent appointments to the committee.

Rationale:

It is rare for the chair of a Senate committee to appoint the members of a subcommittee. The usual procedure is for the Senate committee to make the appointments. It would be better for the Special Talents Committee to follow the usual procedure.
