Senate Committee on Admissions and Standards
December 1, 1998 Meeting

1. Admissions Requirements for Spring 1999

This meeting was called to discuss the proposal requested by the Provost due to a potentially serious enrollment problem Georgia State is facing. The Provost had requested that, due to the extraordinary situation, Admissions and Standards consider approving changes that would lower admission requirements effective for Spring semester 99. At the meeting, the Provost withdrew his proposal.

2. Retention Proposal for Students on Academic Warning, Probation, or Suspension

The Committee passed the suspension proposal in concept and directed a subcommittee to work out the details.

Students on academic warning, probation, or suspension will be required to participate in a comprehensive assessment to identify the academic and/or personal circumstances that may be contributing to their academic difficulties. This assessment will include three separate but closely coordinated components:

1. Participation in GSU 1050 (Survival Skills for College).
   1. Regularly-scheduled meetings with a counselor from the Counseling Center and/or participation in the Student Success Program.
   2. Regularly-scheduled meetings with assigned faculty or staff advisors to monitor progress and to plan the students' future course load.

Students who participate in this program may be exempt from academic suspension for three semesters.

Students who do not participate in the above retention program will fall under those warning, probation, or suspension policies currently in place.

3. Motion on Posthumous Undergraduate Degrees

This motion was again tabled for a next meeting.

Wanda F. Taylor, Recorder
