Senate Budget Committee Minutes
October 8, 2009
3:00 – 4:00 p.m.

Dr. Hugh Hudson welcomed all to the meeting and apologized for the late sending of the agenda. He informed the committee that given the reports across campus of failures with the ADP system, the Budget Committee was reconstituting the HR Subcommittee.

The subcommittee, to again be chaired by Dr. William Downs, was charged by Dr. Hudson to have a preliminary report for the next Senate meeting. A full report with recommendations was to be completed by the end of the semester.

Discussion of the charge and the responsibilities of the subcommittee followed.

Discussion occurred regarding problems with the previous People Soft system.

Discussion occurred with respect to the types of data necessary for producing a report and recommendations.

Concerns were raised regarding both the failure to provide monthly salary checks as well as payments to TRS and to the ORP in a timely manner. Other problems with information on hires, grants, and the general financial and HR operation of the university were noted.

Questions were raised regarding information flow and the relationship of Georgia State University employees responsible for HR and financial operations to the central office of ADP responsible for the University System of Georgia.

With the clarification of the charge to the subcommittee and with no further business on the agenda, the meeting adjourned at 4:00.
