V. Discussion Items/Announcements
Admissions & Standards Retention Subcommittee Recommendation
Dr. Stout discussed the Admissions & Standards Retention Subcommittee’s recommendation to form a committee to review how (and if) existing student life programs contribute to retention. Given its mission and composition, Dr. Stout recommended that the Student Life and Development Committee (SLDC) assume this task rather than creating a new committee. The goal of the review is to broadly assess student life activities and events, including academic clubs and university-wide activities and determine their impact on retention. SLDC would determine the review process and logistics if the recommendation is accepted by Admissions & Standards.
A vote was taken and unanimous support was garnered for this idea. Dr. Stout indicated that she will send this recommendation to Admissions & Standards.

**Homecoming**
Pam Anthony thanked everyone for their participation in the various Homecoming 2006 activities. She highlighted the attendance at the Greek Step Show and the inclusion of Panhellenic Council and Multicultural Greek Council sororities. Contributing to the Golf Cart Parade’s success was the total of 44 entries and holding the event during the week.
