

Spectrum+ Budget Exceptions

Exception	Description	Solution
Exceeds Non-Cntrl Budget	Warning: occurs when the expense exceeds the Non-Control (Tracking with Budget) budget amount.	This exception is not an error. The system will budget check the transaction successfully and take the budget balance negative. If appropriate, contact your college/unit administrative officer to request a budget adjustment to offset the negative balance.
Exceeds Budget Tolerance	Error: occurs when the amount of the expense exceeds the Control budget amount.	Option 1- Change the chartfields on the transaction to a budget with funding. Option 2 - Contact your college/unit administrative officer to request a budget adjustment.
No Budget Exists	Error: occurs when the budget chartfield strings do not exist.	Option 1- Change the chartfields on the transaction to an established budget. Option 2 - Contact your college/unit administrative officer to request a budget adjustment.
Budget Date out of Bounds <i>(Projects only)</i>	Error: occurs when the Budget Date on the transaction is later than the Project End date on the Budget Definition.	Contact the appropriate office to update the end date on the project: Accounting Services (ConEd & Residuals), URSA (Research), Budget and Planning (Capital).
Translation Tree Error	Error: occurs when a chartfield value does not exist in a Budget Translate Tree, or is not at the tree level that corresponds to the transaction.	Contact the Help Desk with the specific transaction information so that the appropriate contact receives notice of the error.
