<tbody>
<tr>
<td>Laptop computer for off-campus student use, for students taking Social Work 8800 – Community Project</td>
<td>$3,000.00</td>
<td>$0.0</td>
</tr>
</tbody>
</table>

2. Project Description

The purpose of the laptop computer will be for student use, for those students taking Social Work 8800 – Community Project. In this course, groups of students partner with a community agency to carry out a project that has both learning value for students and also benefits the partnering agency. In the past, for instance, students have been involved in data collection and creating databases from neighborhood surveys. They have also presented PowerPoint presentations to numerous groups subsequent to the data collection and analysis. Having a dedicated laptop for this course will enable students to pursue more of these survey projects.

3. Relevance to Regents Guidelines

[1] Technology fee revenues should be used primarily for the direct benefit of students to assist them in meeting the educational objectives of their academic programs.

[3] Technology fee revenues should be used for hardware and network related expenditures that include support of general purpose or special purpose laboratories used by students for both productivity and more discipline related activities.

This request is directly related to Regents guideline #1 and Regents guideline #3. The request is for a laptop computer (hardware: guideline 3) that will be used for student projects off campus, and will assist them in meeting their educational objectives (educational objectives: guideline 1).

4. Justification of One-time Funding Requirements

We are requesting one-time funding for a standard laptop computer that has a minimum of 128 megabytes of RAM, a minimum of a 6 gigabyte hard drive, a Pentium III (or equivalent) processor, and standard peripherals. This laptop will be used by students for off-campus course projects.
5. Continuing Funding Requirements

-NONE-

6. Accountability of Funds

Funds will be managed through the office of Anthony Roberts, the business manager for the College of Health and Human Sciences, who will use standard University accounting protocols.

7. Additional Funding Required, Non-Technology Fee

-NONE-

8. Impact on Computing/Network Infrastructure

-NONE-
